

# Galaxy HVA 48

WE BELIEVE IN **PRECISION**. WE BELIEVE IN **RELIABILITY**. WE BELIEVE IN **RESULTS**.

For applying heat activated engineered decorative laminates to aircraft interior panels

## Features

- Allen Bradley HMI/PLC controls
- Clam Shell design
- Operator interface with color monitor
- PLC controlled sequence of operation
- Infrared heating system with 375 watt dura-lamp elements rated for 10,000 hours
- Variable vacuum control
- Manual bleed valve to release vacuum
- Silicone membrane
- Working area: 48" W x 96" L x 15" H

## Options

- Lower heating chamber for 2 sided laminations
- Custom sizes available
